

REDCLIFF REVIEW

VOLUME 2

REDCLIFF, ALBERTA, FRIDAY, MAY 31, 1912.

NUMBER 22

C. N. R. BUSY

In and Around Redcliff for Several Days Past.

C. N. R. surveyors were in Redcliff Saturday making a survey for their line with a view of determining the best route into this city. Their survey ran across the south and southwest end of town from the Stair siding down past Thos. Crook's place and crosses the spur track in the south end of town where it makes the curve going into the Beick & Coal Company's plant and then runs across the south end of town to Medicine Hat. In case this route is decided upon they will go under the C. P. R. track near the Stair siding. This seems the more likely route, as it will put them in a good position with relation to Redcliff's manufacturing district and will enable them to compete with the C. P. R. for a large share of the outgoing freight from this city.

Birthday Party.

Master David Wheeler gave a party to his young friends last Saturday afternoon, the occasion being his 14th birthday. Games were indulged in and a very nice lunch was served and all the young people present had a very pleasant time and wished David many more happy birthdays.

Sold to Atlas Lumber Co.

Mr. Wm. B. Doyle, who established a retail lumber yard here about the 1st of last February, has sold out his interests here to the Atlas Lumber Company and has gone up to the new settlement about 70 miles north of here. This leaves Redcliff with but one lumber yard. Mr. Doyle does a good business while here but was compelled to go north and settle on a homestead he had taken up in order to live it.

WHAT CROP ROTATION WILL DO

It is interesting to note that the land which produced Sugar Wheat, \$1.00 bushel, last year, was cropped with corn, last year, was cropped with corn and the year's income of cropping the land was as follows:

First year—Buckeye.
Second year—Oats, a heavy crop.
Third year—Potatoes, fine potatoes.
Fourth year—Canadian Thorpe 2, second barley, 75 bushels to an acre.
Fifth year—Summer fallow.
Sixth year—Wheat.
Seventh year—Oats heavy crop.
Eighth year—Summer fallow.
Ninth year—Potatoes, 60 bushels to an acre.
Tenth year—Wheat, 40 bushels to an acre.
Eleventh year—Potatoes.
Twelfth year—Wheat, 40 bushels to an acre, also sold plot of Preston. Seed plots and potatoes.
Thirteenth year—Summer fallow.
Fourteenth year—Wheat, which averaged \$1.00 bushel at New York. Last year—Dry Farming.

Welcomed.

Remembrance, May 25.—The Alberta Massacre grand lodge was welcomed today by Mayor Armstrong. The afternoon was taken up with routine work.

GAME ENDED IN A DRAW

The football game played between the Redcliff club and the Canadianians of Medicine Hat on the Hat grounds Thursday evening, resulted in a draw, 0 to 0. The Redcliff team made two goals but the referee, for some reason or other, would not allow them, claiming an off play each time.

The Redcliff team had to play the game with 10 men most of the time, as the referee ruled one man off the grounds because he had got into a dispute with one of the Hat players, but allowed the Hat player to continue, notwithstanding he had been the aggressor.

A large number of foot ball fans of Redcliff journeyed down to the Hat to see the game.

CHURCH OF ENGLAND SERVICE

On Trinity Sunday, June 2nd, by kind permission, a Church of England service will be held in the Hall at 8 p. m. All are cordially invited to attend.

STOCKHOLDERS MEETING CALLED

A meeting of the stockholders of the Redcliff Realty Company has been called for Friday, June 7th, to be held at the head office of the company in this city. It is expected that there will be a very good attendance.

Mr. Owens in Town.

Mr. M. H. Owens, of Calgary, district commercial agent for the Provincial Telephone System, was in Redcliff Wednesday afternoon taking contracts for telephones, preparatory to putting in an exchange in here. Thirty contracts were secured.

TABACCO MERGER IN CANADA.

A despatch from Hamilton, Ont., states that arrangements have been made regarding the Macdonald Tobacco Company, of Montreal, and the Tuckett Tobacco Company, of Hamilton.

The reason given for the merger is that the American Tobacco Company can get much more effectively in Canada, as the combined effect of the two concerns than by each acting the other's throat.

GENERAL BOOTH PROBABLY BLIND

A colleague from London under May 20, says the physicians in attendance on General Booth, the venerable head of the Salvation Army, reluctantly admit that he was probably hopelessly blind. Both eyes are inflamed as a result of the recent operation for the removal of cataracts from his left eye and inflammation has affected the optic nerve.

FAVORS RAILWAY OWNED STEAMSHIPS USING CANAL

Washington, D. C., May 29.—Senator Blount told the Senate committee on Intercontinental canals yesterday that he favored permitting railroads to own steamships to use the Panama canal under regulation of the interstate commerce commission. The secretary declared that he would not exclude valued ships before a wrong had been committed any more than he would have a child killed because it was threatened with the same.

He favored the same tolls for domestic and foreign vessels, provided it did not violate any treaty relations.

Degraded

The great office of president of the United States has been degraded in that they have been handed over by one man to another and then treated in the same manner. It is a disgrace to the office of president of the United States.

UNITED STATES PREPARING TO INTERVENE

Trouble Among Cubans May Cause the Washington Government to Intervene.

The trouble that has been going on for some time among the people of Cuba and the Cuban government is very likely to come to an end in the near future by the intervention of the United States government. Orders have been issued to have the third and fourth divisions of the Atlantic fleet sail for Key West, Fla., where they will be fitted out, preparatory to sailing for Cuba. The hospital ship Solace has also been ordered to join the fleet of war vessels.

Each of the ships will carry a full quota of marines and if it is decided to intervene they will be landed in Cuba to protect American and European interest until an order of occupation can be transported to the island.

Should the American government intervene at this time it is believed that it will end the Cuban republic and the island will henceforth be governed as an American colony.

BREVITIES

The rain of last Sunday and Monday was certainly a great thing for this section of Alberta. A couple of more like that one at proper intervals will insure the farmers of this section a large crop this year.

Mr. and Mrs. H. O. Wheeler spent the first of the week in Calgary. They returned home Thursday night.

Mr. W. T. Lockwood took the noon train Monday for Calgary. He returned Wednesday.

Miss Helen Sherwin made a trip to Calgary this week.

Miss Ida Birt left for home on father's ranch south of here, last Tuesday, after spending several days in Redcliff as the guest of Mr. Broadfoot.

Mr. David Broadfoot made a trip to Calgary Monday night. He returned Wednesday morning.

The household effects of Richard J. Adamson and J. C. Sokstrom are on the way from Minneapolis. Mrs. Adamson and family are expected here in about two weeks. Mr. Adamson has rented the brick house formerly occupied by the Newcome family. Mr. Sokstrom, who leaves for Winnipeg Saturday night, will, on his return, bring his family with him, and will occupy the first frame house on the hill.

Mr. and Mrs. E. F. Hurd left for Calgary Thursday night. They expect to return Sunday night.

The new water line on the hill is almost completed and this makes another fine residential street available.

The spur track to the Clay Products Company's plant, has been finished and the company made some shipments this week.

WINS FIRST TWO GAMES

Redcliff Baseball Team Victorious in the First Two Games of the Season.

The Southern Alberta Baseball League broke open on Friday, May 24, when the Redcliff team, accompanied by a large and enthusiastic chorus of fans, journeyed to Suffield and pried the lid off the box score by defeating the home team by 28 to 7. The teams lined up as follows:

Redcliff	Suffield
Coffey 2nd b.	McCalla, 2nd b. & p.
E. Clave	Gates 1st b.
P. White p.	W. Ambler, c.
Lawson, 1st b.	W. Carter, 1st b.
T. Clave 3d.	T. Angley, 3d b.
Stamps, 2nd b.	Dolan, 1st b.
H. Clave 3d.	Sherriff, c.
H. Clave 3d.	Brown, 1st b.
H. Clave 3d.	H. Clave 3d.

The game was rather late in starting as the Suffield boys were waiting for the fair sex to be on hand to cheer them, and the ladies responded nobly when they got the chance, which was seldom, as the game was Redcliff all the way. The Suffield team was handicapped by lack of practice and the field was in such poor condition that no team could do good work. Gatesley, who pitched the first two innings for Suffield, was not at all up to his usual form and the boys in gray huddled on him heavily, every member of the Redcliff team coming to bat in the first inning and also in the second. Needless to say that the runs were so spilled over the score book in these two epics that the sewer had to keep tab with his fingers. McCulla, for Suffield, replaced Gatesley in the third round, but received the same treatment at the hands of the Brick Makers, who had their batting clothes with them and wore every stitch.

Floyd White, who was on the mound for Redcliff, pitched a good game, getting five strikeouts and keeping the hits well scattered. He was well assisted by Lou, who shows up well behind the bat and who are hustling all the time. All the boys were in the game and the large number of errors on both sides was mainly due to the condition of the field.

Dr. Brown handled the indicator on the score book, and the boys were in the game and the large number of errors on both sides was mainly due to the condition of the field.

Dr. Brown handled the indicator on the score book, and the boys were in the game and the large number of errors on both sides was mainly due to the condition of the field.

FAME SPREADING WORLD-WIDE

Alberta Being Extensively Advertised Through the U. S. Consular Service.

Lethbridge, Alta., May 28.—That Alberta is being advertised all over the world is evidenced by the reports that come from all sources, and the latest proof is the issuance of a statement in the Daily Consular and Trade Reports, issued by the United States Department of Commerce. These reports are sent to all quarters of the world, and are widely read by the manufacturers and exporters everywhere, and the bringing of the International Dry-Farming Congress, to be held here in October, to the attention of these people will mean much to Alberta in the way of publicity.

The Consular report of April 18 says of the congress:

"The Seventh International Dry-Farming Congress is to be held at Lethbridge, Alberta, Canada, October 20 to 28 next. During the same week there will be an interesting exposition of dry-farmed products, farm machinery, and labor saving devices for the home and farm sanitation. There will also be held at the same time the second annual convention of the International Congress of Farm Women and the second annual conference of the Agricultural Colleges and Experiment Stations. These will be of great interest to all, and will be a valuable opportunity for the exchange of ideas on agricultural education, on farm management and on scientific research as it relates to agricultural subjects. Two hundred acres will be available for soil tillage demonstration in connection with the machinery exhibit. The secretary-treasurer, John T. Burns, invites correspondence for further information. A report was sent by Consul General G. Foster of Ottawa, and was prepared by Consular Agent W. H. Dobbins, of Lethbridge.

Redcliff started out in the first inning by scoring two runs, while Suffield drew a blank. Redcliff failed to score in the second, but when Suffield came to bat it looked as if they were out for revenge for the previous day's beating, they scoring four runs, but in the third the Brick Makers clinched the game by scoring six runs. In this inning, with the bases full, Dol-

lough came to bat and swatted the ball for a three bagger, which cleared the bases, and in trying to overtake him at third the ball went wild and he made the home plate without any effort.

From this time until the close the game was all Redcliff's.

Floyd White and Peterson were the Redcliff battery, while McCulla and Page performed for Suffield. Umpire Whittins was very fair in his decisions and showed that he was very familiar with the baseball rules.

The Brooks team is scheduled to play here tomorrow, Saturday, June 1st.

TO BUILD A PRIVATE OFFICE BUILDING

Dr. E. W. Brown has just let a contract to McLaughlin & McLean for the erection of a private office building on Broadway, across the street and a trifle east of the Haystack office. It will be one story, 24x20 feet in size and will be built of brick. Work has already been begun on its erection.

STANDING OF THE SCHOOL CHILDREN.

The following marks were obtained by the pupils of grades five and eight during the past week:

	Arith.	Geom.	Exp. Hs.	Can.
Hazel Current	100	83	100	
Marion Miller	90	81	77	82
Clara Ralph	80	76	100	80
Clara Clardine	64	45	97	98
Evelyn Riddell	68	47	69	71
Ross McKay	14	A	A	A
GRADE EIGHT.				
		Can. Hs.	Geom.	
Edythe Broadfoot	96			58
Elsie Clare	82			50
Violet Gibson	72			55

WHAT TO SAY ABOUT REDCLIFF

Redcliff is situated on the main line of the C. P. R., 173 miles west of Calgary, on the banks of the Saskatchewan river.

Natural gas is probably Redcliff's first and greatest asset—meeting the requirements of as great a demand as may be made for manufacturing purposes.

Working coal mines on both sides of the river, and immense deposits cropping out yet unexplored.

Brick and other clay products are manufactured extensively and additional corporations for this line of industry are in contemplation.

The business houses and residences are practically all of brick—home product.

Slits sands abound, tests of which have proven an excellent quality for glass making.

Industrial sites are donated to new enterprises.

Surrounding territory is in the heart of Alberta's wheat belt, and there are no more prosperous farmers in the world than here.

REDCLIFF ALREADY HAS

A flour mill that will grind 78,000 bushels of wheat per month or 930,000 bushels per year.

A large ornamental iron works, that expects to enter play 150 men before the 1st of September.

Two plants for making brick and clay products, the demand for which is increasing constantly.

One protestant church.

A fine, new, thoroughly modern brick school house.

An excellent gas lighting system, and mains laid throughout the city.

An assessed valuation of more than half a million and a municipal tax levy of eight mills.

An fine a three-story modern brick hotel as there is in the west.

A perfect system of water works—water pure as the mountain springs.

The first building erected in Redcliff was April 21, 1910, just two years ago.

Increase in Customs.
The month of May will show customs collections at the port of Toronto of over \$200,000 in excess of the receipts for the same month a year ago. The approximate figure was \$1,075,000. At the rate of increase over last year the receipts for the present fiscal year will run into \$22,000,000.

ANNOUNCEMENT.

The Alberta-American Ornamental Iron Company, Limited, of Redcliff, Alberta, hereby give notice that the name of the company has been changed, and hereafter will be known as the Alberta Ornamental Iron Company, Limited.

Synopsis of Canadian Northwest Land Regulations.

Any person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Land Agency or Sub-Agency for the district. Entry by proxy may be made at any agency on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

During six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section, alongside his homestead. Price \$5.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$5.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00.

Coal mining rights may be leased for a period of twenty-one years renewable at an annual rental of \$1 per acre, not more than 2,000 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

FLUSH THE HYDRANTS.

The hydrants of our water system should be flushed. It is a well known fact that these hydrants contain a lot of stagnant water that damages the water we drink and should be flushed at least once every 60 days. To our knowledge they have not been flushed for the past six months and if allowed to remain in that condition much longer there is liable to be a typhoid fever epidemic break out here. Such a thing can be avoided if proper precautions are taken to keep our water supply pure.

SENATOR "BOB" TAYLOR OF TENNESSEE ON INGERSOLL

SAT is a great theater at Washington that was thronged with youth and beauty, old age and wisdom. I saw a man the image of his God stand upon the stage and I heard him speak.

His gestures were perfection of grace, his voice was musical and his language was more beautiful than I had ever heard from mortal lips.

He painted pictures after pictures of the pleasure and joy and sympathy of human life. He preached the gospel of humanity like an angel. Then I saw him dip his hand in the ink of mortal blackness and blot out the beautiful picture he had painted. I saw him stab, force dead at his feet. I saw him blot out the stars and the sun and leave humanity and the universe in eternal darkness and eternal death.

I saw him, like the serpent of old, worm himself into the paradise of human hearts and by his seductive eloquence and subtle device and supple body to lead his faithful ones, under whose light his powers faded, his music was hushed, his sunshine was darkened and his soul was left waste with only the new made groans of faith and hope.

I saw him, like a lawless, erratic meteor, without an orbit, sweep across the intellectual sky, brilliant only in his self-consuming fire generated by friction with the indestructible and eternal truths of God.

That man was the avenger of modern infidelity, and I said, How true is the Holy Writ which declared: "The fool hath said in his heart, there is no God."

Tell me not, O infidel, there is no God, no heaven, no hell. Tell me not, O infidel, there is no true Christ. What intelligence less than God's could fashion the human body? What motive power is it, if not God, that drives the throbbing engines of the human heart, with ceaseless, tireless stroke, sending the crimson stream of life bounding and circling through every vein and artery?

What aid, whence, if not God, is this mystery we call mind? What is it that thinks and feels and knows and acts? Oh, who can deny the divinity that also dwells in us?

God is everywhere and in everything. His mystery is in every bud and blossom and leaf and tree, in every rock and soil and vale and mountain, in every spring and rivulet and river.

The realm of life wing is in every zephyr; His might is in every tempest. He dwells in the dark pavilions of every storm cloud. The lightning is His messenger and the thunder is His voice. His awful tread is in every earthquake and on every angry ocean. The heavens above team with His myriads of shining witnesses. The universe of solar systems, whose wheeling orbits trace the crystal paths of space, proclaim through the dear hall of eternity the glow and power and dominion of the all-wise, omnipotent and eternal God.

TO BECOME GOVERNORS OF DOMINIONS

A good deal of attention is being paid to the doings of the King's son. The Prince of Wales' movements in Paris are chronicled with ostentatious regularity, and the fact that Prince Albert accompanied the King on his historic submarine trip has been fully recorded. Prince Henry, his majesty's third son, is now claiming the attention of the public. He is said to be the natural student of the family, and happy always when with books or music. There is possibly a deeper purpose in this comprehensive education of the young prince that is not at first so apparent, for it is stated that the King intends his son to become "Lord of England" by taking up positions similar to that now held by the Duke of Connaught.
